<sup>\*\*</sup> Underlying statistics are net of certain transactions which do not form part of the regular operations of the business as further detailed in the table below

# Highlights:

- Recurring revenue remains predictable and a cornerstone of the business, and now represents 88% of the Group's reported revenue
- Disinvestment of both CTS businesses allowing the Board to concentrate on growing our core activities
- Strategic focus on updating and revising operating model to drive increased "topline" growth
- Three of four IT projects now gone "live" with intention of having two core administration systems – improving operating margins
- Adapted to a "hybrid" working environment to keep our colleagues safe and maximise flexibility and efficiencies
- The Berkeley Burke acquisition of August 2020 is now fully integrated and delivering the profit that was anticipated
- Acquisitions are a core pillar of our growth strategy

# Commenting on the results and prospects, Alan Kentish, Chief Executive Officer at STM, said:

"The first six months of the year have been busy with two disposals and three of the four key IT projects having gone "live". As one would expect with our business model, the recurring revenue nature of our pensions and life assurance businesses underpins the predictability of our performance, with some 88% of total revenue meeting this classification.

"The simplification of our overall Group structure and our business lines remains a focus of the Plc board, and we are pleased to be able to state that we have now exited the Trust and Corporate Services sector, having found good homes for both the Gibraltar and Jersey clients and colleagues. The Berkeley Burke acquisition of August last year is now fully integrated and delivering the profit that was anticipated.

"There continues to be a strong appetite for further acquisitions as a key pillar for revenue and profit growth, to sit alongside the organic growth opportunities.

"We look forward to updating shareholders with our progress in the near future."

# Investor Presentation: 1.30pm on Wednesday 15 September 2021

# Chairman's Statement

I am pleased to present the results for the first six months of 2021. It has been a period of considerable actual and ongoing evolution within the Group against a backdrop of the continuing challenges of the pandemic, where we continue to support all our colleagues, clients and stakeholders. This backdrop has been made all the more challenging as it has coincided with us finalising a number of major IT migration projects, which will ultimately move the Group to a healthier operating margin.

The recurring revenue base has held up well and continues to form our foundation stone for building our new business revenues, which is our stated strategic priority. Revenue (excluding discontinued operations) grew year on year by 3.9% although the first half of 2021 was relatively disappointing with regards to new business volumes in certain areas, with some partnership arrangements being slower to come to fruition than expected. The Group has, however, maintained its overall profitability through prudent and agile attention to our resourcing and cost base.

We continue to realign our business to be more focused on revenue growth and are now making real tangible changes to our operating model to support this strong ambition. The investment that we have made in the infrastructure over the last few years gives us confidence that we are able to cope with accelerating our revenue growth and improve operating margins by sweating our existing infrastructure and capability.

#### **Board Evolution**

Going into the second half of 2021, our operating model changes further as we move down to a twoperson Plc executive team, and the creation of a dedicated senior Group role for business development, which will be a non-Board post. We will continue to proactively review our top to toe governance structure and also our stated risk appetite profile so as to ensure that it is conducive to our stated top and bottom line growth expectations.

I must express my deepest thanks to Therese Neish and Pete Marr for their huge contribution to the Group over the years, both of whom will be stepping down from the Board before my next Chairman's report.

Finally, I would like to take the opportunity to thank all my STM colleagues for their continuing hard work in a complicated and unpredictable working environment.

# Chief Executive's Review

#### Overview

The first six months of the year have been busy with two disposals and the completion of some important IT projects. In operational terms the business has, overall, performed in line with management's expectations.

Our UK workplace pensions business delivered higher than anticipated revenues, although new business revenue overall was slower than was expected, particularly around UK SIPP business and our flexible annuity product. In addition, our cost base was managed accordingly.

As one would expect with our business model, the recurring revenue nature of our pensions and life assurance businesses underpins the predictability of our performance, with some 88% of total revenue meeting this classification.

The delivery of our key IT projects is now well underway, with three of the four projects now having gone "live". Whilst there is still development work to be completed, we have moved a very significant step forward to our strategic aim of having one administration platform for our private pensions and life businesses, and one platform for our workplace and occupational pensions. We believe that moving into 2022, we will see improved operating margins as a result of these administration platforms, and that they will help the Group to differentiate itself from others in the marketplace.

The simplification of our overall Group structure and our business lines remains a focus of the Plc board, and we are pleased to be able to state that we have now exited the Trust and Corporate Services sector, having found good homes for both the Gibraltar and Jersey clients and colleagues. The Berkeley Burke acquisition of August last year is now fully integrated and delivering the profit that was anticipated at the time of acquisition.

#### Financial review

#### Financial performance in the period

The Group delivered revenue growth from continuing operations of 3.9% from £10.2 million in 2020 to £10.6 million) with growth in revenues from our Pensions division offset by a slight reduction in our Life assurance division. Reported revenues for the first half of the year were £11.4 million (2020: £11.8 million) with the main reason for the decrease being as a result of the disposals of the Group's corporate & trustee services ("CTS") businesses earlier in the year. Revenue contribution from these businesses accounted for £1.6 million in 2020 as compared to £0.8 million in the period from 1 January 2021 to the respective dates of disposal.

Recurring revenues for the period have remained consistent at £10.0 million (2020: £10.0 million), representing 88% of total revenues (2020: 85%). The sale of the CTS business has contributed to a higher percentage given that CTS businesses had a high proportion of transactional based revenue which was not considered recurring as this was less predictable than the fixed fees generated from the pensions

and life assurance businesses. These high levels of recurring revenues remain an important key performance measure for the business and demonstrate the quality of the Group's revenues.

Profit before other items for the period is £1.5 million (2020: £1.8 million) with reported profit before tax of £0.9 million (2020: £1.0 million). However, during the period there have been a number of one-off and non-recurring costs such as costs associated with internal restructures and a capital management review engagement. Thus, the underlying profit before other items is £1.7 million (2020: £1.9 million) and underlying profit before tax of £0.8 million (2020: £1.0 million).

In line with revenue, the reason for the decrease in profitability is largely down to the sale of the CTS businesses. Whilst not significant these sales have resulted in the loss of profit contribution and in addition to this some of the centralised costs having to be absorbed by the wider Group.

The reconciliation of reported measures to underlying measures is made up of items which are either non-recurring or exceptional and thus do not form part of the normal course of business. This reconciliation for all three key financial measures is shown in the table below:

| RECONCILIATION OF REPORTED TO UNDERLYING MEASURES |         |      |                                   |      |          |      |

# Cashflows

Cash and cash equivalents at 30 June 2021 were £18.6 million (2020: £18.3 million) with cash generated from operating activities being £1.2 million (2020: £1.7 million) thus exceeding our reported profit before tax.

Whilst cash balances have remained fairly consistent as compared to the same period for the prior year they have increased since the year end. This is largely as a result of the sales of the two CTS businesses earlier in the year. These disposals generated net cash inflows of £1.6 million.

During the period we also repaid £0.3 million of our bank loan with £1.3 million still outstanding. Net cash and cash equivalents as at 30 June 2021 were therefore £17.3 million (2020: £17.6 million). The Group has a credit facility in place with £3.9 million available to be drawn down for acquisitions and other growth opportunities.

As would be expected for a Group regulated in a number of jurisdictions, a significant proportion of our

cash balance forms part of the regulatory and solvency requirements. It is not possible to determine exactly how much of the cash and cash equivalents are required for solvency purposes as other assets can also be used to support the regulatory solvency requirement. However, the total regulatory capital requirement across the Group as at 30 June 2021 is £16.9 million.

The balance sheet also gives visibility of future revenue and cash generation and, in line with all administration services businesses, the Group had accrued income in the form of work performed for clients but not yet billed of £1.4 million as at the period end (2020: £1.7 million). This gives some visibility of revenue still to be billed and collected as cash at bank.

Additionally, deferred income relating to annual fees invoiced but not yet earned stood at £4.0 million (2020: £4.4 million). This figure also gives good visibility of revenue that is still to be earned through the Income Statement in the coming months.

Trade receivables as at 30 June 2021 were £3.1 million (2020: £3.2 million).

#### Dividend

I am pleased to announce that the Board has declared an interim dividend of 0.60 pence per share representing a 9% increase on last year (2020: 0.55 pence). The interim dividend is expected to be paid on 17 November 2021 to those shareholders on the register on 22 October 2021. The ordinary shares will become ex-dividend on 21 October 2021.

Subject to trading continuing to perform in line with our revised expectations, the Board expects to propose a final dividend for the full year.

#### **Review of operations**

#### **Pensions**

The pensions administration businesses continue to be the cornerstone of our operations with this halfyear period being the first full 6 month contribution from the Berkeley Burke acquisition made in August 2020.

Overall, the pensions revenue for the period was £8.7 million (2020: £7.9 million) representing 76% (2020: 67%) of total Group revenues. Total revenue is split between £4.9 million for QROPS (2020: £5.1 million), £1.7 million (2020: £1.9 million) for the SIPP and SSAS businesses and a further £1.5 million (2020: £1.0 million) for the workplace pensions business. In addition, this year the Group also has a revenue contribution of £0.6 million from third party administration and Group Pension Plans.

The recurring revenue percentage for this operating segment remains at 93% in line with that of the same period for 2020. This combined with the relatively low attrition rates means that it remains a solid predictor of future divisional profitability.

The new business applications for QROPS and SIPPs have seen a decrease from the same period last year at 372 (2020: 473).

The final pensions revenue stream within the Group is the auto-enrolment business acquired as part of the Carey acquisition, now branded Options Corporate. Whilst this business started the year with a higher number of members than budgeted, the number of new members in the first six months has been lower than expected at circa 30,000. However, July and August have seen some of the transfers expected in the first half of the year with a total of circa 17,500 in these two months alone. Management is therefore confident that this revenue stream will deliver as expected.

#### Life assurance

Revenue for the combined life assurance businesses amounted to £1.6 million as compared to £1.9 million in 2020. This decrease is largely due to lower investment income and AUA based fees as a result of the lower interest rates and markets following the global pandemic as previously reported.

In a similar manner to the pensions operating segment, our life assurance business also has high recurring fees. A total of 98% of total revenues for the period are recurring (2020: 95%). The reason for the increase in as a result of lower new business than the prior year, thus lower establishment fees.

Our flexible annuity products aimed at the UK market remain the key focus for sustainable organic growth within our life businesses. Conversion times for new business remain slow and unpredictable, and continued effort to expand our intermediary base is an important part of improving our new business numbers.

In addition, we have relaunched our short term annuity product during the second half of 2021, and we believe that this will deliver additional revenue and profit going into 2022.

## Corporate and Trust Services ("CTS")

Revenue from the Corporate and Trustee Services divisions are included up to the date of disposal. In the case of the Gibraltar business this is for the period from 1 January to 23 March 2021 contributing £0.3 million of revenue (2020: £0.8 million). The Jersey business contributed £0.4 million in the period from 1 January to 8 May 2021 (2020: £0.8 million).

#### **Outlook**

The Board has built an infrastructure that will allow for scalability and accelerated organic growth going forward, and the focus of the management team must be to deliver on that proposition. Investment in the revenue generating part of the business is a commitment of the Plc board. As part of this drive, the newly created role of Group Director of Business Development Strategy will initially be taken by Christine Hallett on a secondment basis. Christine, who was previously managing director of our Options SIPP and Options Corporate businesses, has a proven track record in delivering organic growth. The non-board role will ensure that a stronger emphasis on new business and product initiatives are implemented across the Group, as well as capitalizing on cross selling opportunities.

In addition, the more streamlined Group post the disposal of the CTS businesses, and the stronger and deeper infrastructure that we have created has allowed the Plc board to revise its operating model. Part of this review has seen the decision to move down to a two person executive team at Plc board level. Pete Marr has agreed to step down as COO during the latter part of the year having made a significant contribution to the reshaping of the Group operating model, handing over his reporting lines to the two

remaining executives. Nicole Coll, the incoming CFO from 1 October, will receive an orderly handover from Therese Neish during the last quarter of the year.

There continues to be a strong appetite for further acquisitions as a key pillar for revenue and profit growth, to sit alongside the organic growth opportunities.

We look forward to updating shareholders with our progress in the near future.

# NOTES TO THE CONSOLIDATED RESULTS For the period from 1 January 2021 to 30 June 2021

#### 1. Reporting entity

STM Group Plc (the "Company") is a company incorporated and domiciled in the Isle of Man and was admitted to trading on the London Stock Exchange AIM Market on 28 March 2007. The address of the Company's registered office is 18 Athol Street, Douglas, Isle of Man, IM1 1JA. The Group is primarily involved in financial services.

### 2. Basis of preparation

Results for the period from 1 January 2021 to 30 June 2021 have not been audited.

The consolidated results have been prepared in accordance with International Financial Reporting Standards ("IFRS"), interpretations adopted by the International Accounting Standards Board ("IASB") and in accordance with Isle of Man law and IAS 34, Interim Financial Reporting.

#### 3. Significant accounting policies

The accounting policies in these consolidated results are the same as those applied in the Group's consolidated financial statements for the year ended 31 December 2020. No changes in accounting policies are expected to be reflected in the Group's consolidated financial statements for the year ended 31 December 2021.

#### 4. Segmental Information

STM Group has four reportable segments: Pensions, Life Assurance, Corporate Trustee Services and Other Services. Each segment is defined as a set of business activities generating a revenue stream and offering different services to other operating segments. The Group's operating segments have been determined based on the management information reviewed by the CEO and Board of Directors.

The Board assesses the performance of the operating segments based on turnover generated. The performance of the operating segments is not measured using costs incurred as the costs of certain segments within the Group are predominantly centrally controlled and therefore the allocation of these is based on utilisation of arbitrary proportions. Management believe that this information and consequently profitability could potentially be misleading and would not enhance the disclosure above.

The following table presents the turnover information regarding the Group's operating segments:

| Operating Segment          | Unaudited<br>6m 2021<br>£'000 | Unaudited<br>6m 2020<br>£'000 | Audited<br>2020<br>£'000 |

In November 2020 the Company signed a credit facility with Royal Bank of Scotland (International) Ltd for £5.50 million. The facility has a 5-year term with capital repayments structure over ten years and a final instalment to settle the outstanding balance in full at the end of the 5 years. At the period-end £1.6 million of this facility had been drawn down with £1.3 million outstanding. Interest on the drawn funds is charged at 3.5% per annum over the Sterling Relevant Reference Rate, with the undrawn balance charged at an interest rate of 1.75% per annum over the Sterling Relevant Reference Rate.

The facility is subject to customary cashflow to debt service liability ratios and EBITDA to debt service liability ratio covenants tested quarterly and is secured by a capital guarantee provided by a number of non-regulated holding subsidiary companies within the Group and debenture over these companies.
